WORK EXPERIENCE

Senior Software Engineer
Traveosoft
Bangalore, India
2017 - Present

Lead developer in two web applications and a mobile app that automate business travel & expense management. I am the sole developer of the react native mobile app and the only front-end developer in one of the applications that uses React and Redux. I am also the sole front-end + Node.js developer of the other application that facilitates third party ticket bookings. Technologies used are React, Redux, Node.js, Angular Js, Ionic, etc.

Sr Systems Executive
Cognizant
Bangalore, India
2015 - 2017

Worked in Cognizant, from April-2015 to June 2017, for Johnson & Johnson where I managed oracle databases that consolidates information from their various life sciences applications.

Software Engineer
Perfomix Inc
Kochi, India
2011 - 2012

Worked as a J2EE developer in Perfomix for 6 months before pursuing my Master's in Computer Science & Engineering (2012). Worked on real time java applications that calculated different oil rig parameters and displayed them in various graphs, charts, etc.

EDUCATION

Master's in computer science and engineering from TKM College of Engineering, Kerala University (2012-2014)

Bachelor of Technology in computer science and engineering from MG University (2007 - 2011)

HOBBY PROJECTS

- ◆ DEX RUN A fun little android game made in unity 3D using C# [Link](#)
- ◆ Type Bunny A simple typing game to test your typing speed made in JavaScript

PERSONA

Friendly, dedicated and overall nice guy who likes technology, nature, art and other creative things.
